TENDER HEARTED BEGGAR.

A touching begging story with a good moral is told by the Pittsburg *Telegraph* A young man who had been on a three days debauch wandered into the reading room of a hotel, where he was well known, sat down, and stared moodily into the street Presently a little girl of about ten years came in and looked timidly about the room. She was dressed in rags, but she had a sweet, intelligent face, that could scarcely fail to excite sympathy There were five persons in the room, and she went to each begging One gentleman gave her a five cent piece, and she then went to the gentleman spoken of and asked him for a penny adding, 'I haven't had a thing to eat for a whole day" *The gentleman* was out of humor, and he said crossly: "Don't bother me: go away! I haven't had anything to eat for three days" The child opened her eyes in shy wonder and stared at him for a moment, and then walked slowly toward the door. She turned the knob, and then after hesitating a few seconds, walked up to him, and gently laying the five cents she had received on his knee, said with a tone of true girlish pity in her voice, "If you haven't had anything to eat for three days you take this and go and buy some bread. Perhaps I can get some more somewhere The young fellow blushed to the roots of his hair, and lifting the Sister of Charity in his arms, kissed her two or three times in delight Then he took her to the persons in the room, and to those in the corridor and the office, and told the story and asked contributions, giving himself all the money he had with him He succeeded in raising over $40 and sent the little one on her way rejoicing

FREAKS OF FORTUNE.

A fortune of $12,000 000, may turn upon a bit of yellow parchment found in a rubbish heap A Nova Scotia journal says that the agent employed by the heirs of the Hyde estate to go to England has written encouraging reports. He has met the directors of the Bank of England, where the money is deposited Hyde was formerly in Annapolis, having been sent out by the Imperial Government He had one daughter born in Nova Scotia The money in question was left to her after he died. An intimation was sent to this country many years ago asking for the heirs The family of the Hydes in the United States took the matter up and decided that the heirs were in Nova Scotia. The missing link up to a recent period was proof that the original Hyde was the one who held the imperial commission and went to Annapolis There was no commission of his to be found. A few years ago an old trunk was sold at auction and bought by a woman for 25 cents She subsequently broke it up for kindling wood and in the lining found a parchment document, which she deemed so pretty with seals attached that she put it away as worthy of preservation Subsequently she happened to mention the incident to a friend. It proved to be the missing document.

THE reports going around the press respecting the transfer of the Walla Walla and Columbia River Railroad to the Oregon Steam Navigation Company are premature and incorrect. An interest in the stock has been transferred to an association of gentlemen, who purpose the further extension of railroads where and as the requirements of the county demand and justifies. It has been determined to immediately put into the field surveys on the Weston route, to determine the most practicable line for a branch in that direction If proper facilities and inducements are granted and no obstacles thrown in the way the line will be extended to Weston this summer

"Vat ish your name?" inquired a German salesman of a customer "My name is Cox," replied the gentleman "Vell, how was dot name spelled?" "Why, C-o-x" said the customer "Oh, yaw, I see" said our German friend, as he wrote down "C o—" but won't you bless dell me how you schpell dot X?"

FUNNY THINGS.

Here is a horrible one from the fiend of the New Haven *Register*. Don't venture on thin ice, just now, boys. If you should break through you might take a bad cold, and, perhaps, have a coffin fit."

The difference 'twixt tweedledum and tweedledee is illustrated by the fact that the rich man with a great appetite is called an epicure, and the tramp with a great appetite is called a glutton.

"I'm a rutabaga, and here's where I plant *myself*," said a tramp, as he entered a farmhouse near Freeport, Ills , and seated himself at a table "We allers bile ours,' said the farmer' wife, and soused him with a pan full of boiling water.

The moon is just the thing for coon hunting or sleigh riding, but it isn t worth much for gathering chickens, or talking about the greenback movement over the front gate with another fellow's girl.

The champion long nosed man resides at Sacramento. Its owner was at breakfast, when a friend seated on the opposite side of the table, knowing him to be a little near-sighted, remarked "There's a fly on the end of your nose." "Is there?" *responded* the owner of the horn of plenty. "I din't know it Just please scare him off; you're nearer to him than I am"

DAILY NEVADA STATE JOURNAL

FRIDAY.....FEBRUARY 7, 1879.

THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL

Have a constantly increasing circulation larger than that of any interior journal of Nevada, excepting those in the Comstock.

LETTER FROM CARSON.

CARSON, Feb. 6, 1879.

ED. JOURNAL:—The fifth week of the session is drawing to a close, and the excitement is on the increase. Many important bills have been introduced this week, and the excitement over the Williams discrimination bill has been a feature of the legislation.

NO MORE DISCRIMINATION.

The Williams bill will do for Nevada what the Reagan bill is expected to do for the country. Its passage by this Legislature is a substantial victory for the people.

SALARIED OFFICERS.

The bill doing away with the fee system and allowing all county officers a fair and liberal salary has been introduced. It is in rather a crude and imperfect form, but put in now to permit ample time for such amendments as will necessarily be offered by the various delegations. Properly perfected there can be no more important piece of legislation. The salary system, as against the fee system, will save the people of Nevada over half a million dollars per annum.

THE PEOPLE TO VOTE.

A bill has passed the Senate to allow an expression of the people upon the subject of Chinese immigration. At the next general election voters are to place on their ballots for or against as they may see fit. It is expected that the vote will be almost unanimous, and serve to enlighten people as to our feelings.

THE RENO SCHOOL HOUSE.

The Washoe delegation in the Senate to-day reported back the school bill. It authorizes Reno to issue $20,000 in bonds for school purposes; $17,000 is to be used for a high school building on the north side of the river and the remaining $3,000 for a primary school on the south side.

THE INSANE ASYLUM

Project will be reached in the Assembly to-morrow, and it is believed will pass. The bill has been amended so that the Board consists of the Governor, Controller and Treasurer, the appropriation is $100,000, and Reno is to furnish water free of charge to the State.

INCORPORATION.

If no general law is perfected which will cover case, the Washoe delegation will prepare some sort of a law that will give Reno the benefits of an incorporation, in such shape as will be satisfactory to all the citizens.

NING POW.

LATE NEWS.

The House passed the Mississippi Levee bill by a vote of 155 to 73 The amendment appropriating $3,871,000 for strengthening the levees was withdrawn.

The Senate pased Edmunds' resolutions regrding the Thirteenth, Fourteenth and Fifteenth Amendments to the Constitution.

The opinion prevails in the New York Produce Exchange that the plague in Russia will create a great demand for American wheat and other grains.

In the town of Wrightaville, Southern Illinois, on Monday night, Dr. Charles E. McAuliffe shot and killed his brother-in-law, and tried to escape but was seized by a mob and hung to the limb of a tree.

Wednesday the Vice President laid before the Senate the credentials of John P. Jones, elected United States Senator from Nevada. Placed on file.

ACCORDING to the Idaho *Statesman* of Saturday the members of the Assembly were still balloting for Speaker when that paper went to press, with no prospect of succeeding in electing one.

IT is announced from Buffalo, New York, that a company is being organized in that city for the purpose of buying land in California and establishing a colony in the Golden State Some of the Western states have been largely settled by similar schemes, and it is noticeable that the colonies are singularly successful.

NO MORE DISCRIMINATION.

The State of Nevada, through its Legislature, has set an excellent example to the United States. We have passed the Reagan bill, with such amendments as make it applicable to this State, and further provided that every road should stand on its own merits, But there is to be no more discrimination within the confines of this State. The poor man has now an even chance with the rich one. The V. & T. R. R. can no longer carry wood for the bonanza firm cheaper than for any body else; the C. P. or the Eureka and Palisade can not favor one person to the detriment of another. And so, so far as Nevada is concerned, the people, through its legislators, has put a stop to discrimination, of which there has been so much complaint of late years.

EDITORIAL JOTS.

What has become of the Begum of Begob? A few weeks ago the telegraph was burdened with what this personage thought or expected to think; but of late, since the Ameer of Afghanistan has collapsed, the aforesaid Begum has retired to the shades of private life. Where the Begum of Begob holds forth or what he is we are not prepared to say, and turn the matter over to Susan B. Anthony or George Francis Train, who think they know everything.

After one has read of the black death in Russia, and remembers the visitation of the yellow fever recently in the South the thought of the pure mountain air of Nevada comes with peculiar relish. No malaria can lodge in this State, for the pure zephyrs of the Sierras would soon scatter it to the four winds. To abuse the winds of Nevada is to speak ill of the best health giver we have.

The workmen who went to Brazil to build railroads and open up the resources of the domain of Dom Pedro are returning as rapidly as possible, The stories they tell of the hardships and deprivations they had to endure in the wilds of Brazil, will keep all from listening to Dom Pedro's offers in the future, and will stay at home rather than fly to the evils they know not of.

STILL IN REBELLION.

The invasion of Breathitt county, Ky., by two companies of State militia, says the New York *Sun*, has led to unexpected developments regarding that benighted and lawless region There is reason to suspect that the highlanders of Breathitt, not content with killing each other, have been in the habit of murdering stray travelers. The Prosecutor has learned that several wayfarers, after having lodged in certain cabins at night, disappeared on the next day, and were never heard of afterward. The inhabitants of Breathitt county are so ignorant that they seem not to be aware that the late civil war ended in the overthrow of the Confederacy. One of the militia companies sent to enforce the orders of the courts is attired in a blue uniform, and the other company in gray, and, according to an intelligent militiaman, the mountaineers were impressed with the belief that the men in blue were Federal soldiers, and that the men in gray belonged to the Confederate army How they accounted for the amity existing be ween the companies is not stated. It appears that the curiosity of the mountaineers was excited by seeing a trooper cut an orange which he had brought from Frankfort Oranges are an unknown fruit in Breathitt, There is evidently work for both schoolmaster and missionary in the Borriobhoola Gha of Kentucky.

THE New York *Sun* says Olive, the Nebraska murderer, who took a leading part in burning two citizens to death, is perhaps the wealthiest man ever arrested in the United States for deliberate homicide. The Olives own over seventy thousand head of cattle, and vast tracts of land. Olive appears to have considered himself above the law, and tortured his victims to death with as much reckless ness as he might have shown in destroying a wild cat. He is spending money unstintedly with a view of evading justice, and the Sheriff of Kearny county, where the crime was committed is said to be entirely subservient to the murderer. There can be but little doubt as to the result of a fair and impartial trial.

Jesse Pomroy, the fiend, will soon be a boy no longer. He is stout and nineteen years if age.

ON THE WING.

O. S. Server Wandering in the East—He speaks of Palisade and Its Scenery—The Country in General.

CARLIN, February 4, 1879.

EDITOR JOURNAL:—In my last letter I spoke of Eureka and the line of the E. & P. Railroad, but in this communication I will confine my notes to the scenes and incidents around Palisade nd Carlin.

PALISADE

Is a small town situated directly on the line of the C. P. R. R and at a point where the narrow gauge railroad from Eureka connects with the C. P. The population of the place is small, there being only about one hundred and fifty people there. The most of the male population is steadily employed by the railroad companies, consequently there are no idlers about town. This being the general shipping point for the towns in the southern part of Eureka county, in which Palisade is situated, there necessarily follows a considerable business in the freight departments of the company, and I believe that the freight business is as large as at any other point on the line of the C P R. R in this State. Mr. O H Bailey is the freight agent at this place and is a very accommodating gentleman The E & P. Railroad Company have their car shops at the east end of the town, on the banks of the Humboldt river. Here they repair all their rolling stock, and also have manufactured many of the cars that are now in use. There are several railroad buildings along the river, each having a special department and it is quite interesting to go through them and watch the laborers as they pursue their work. In one of the building is the machine shop where all the engines are repaired as well as the iron work of the cars. In another is the paint shop, where the workmen show a great deal of skill in painting the figures on the engines and passenger cars. In another building is the carpenter shop, and I might go on and describe several other departments if space would only permit; but it is sufficient to say that the departments are all well regulated and the E & P. Railroad save thousands of dollars each year by having their own car shops. There is only one store in Palisade of any size or importance and this is kept by Jno Marchant, who is an old resident of the county and has been at Palisade for over eight years. I should judge that he is doing a very good business. The Postoffice is situated in this store, with Mr. Walter Marchant as Postmaster.

SECRET SOCIETIES.

The Odd Fellows' organization has a good sized and comparatively well furnished hall, and I am told that the order has a very fair membership, considering the size of the town. The most of the members of the above order also belong to the Masonic fraternity whose meetings are held in the same hall. There was also a lodge of Good Templars organized a short time since and I am informed that they are thriving finely and bid fair to cause a little commotion in the whisky business.

FROM PALISADE TO ELKO.

At a distance of only one half of a mile east of Palisade the railroad enters the canyon, on each side of which rises in majestic beauty high rugged and perpendicular cliffs. Through this narrow gorge the Humboldt river flows and in many places occupies all the canyon, rendering it necessary to build a shelf in the side of the cliffs to build the railroad on. This narrow canyon extends for several miles and then widens out, the perpendicular rocks disappearing and foothills presenting themselves to view. About midway of the palisades there are two large caves that have never been thoroughly explored for the reason that wolves and other wild animals have dwelt there and no one ever got up sufficient courage to make an exploration. There have been several romances connected with this place, all of which have been chronicled in history, therefore, it has a considerable fame. Just before reaching Carlin the valley widens out to a distance of several miles and a considerable amount of land situated along the river is under cultivation, and I should judge that a large amount of hay is cut each year, as I noticed a great many cattle were being fed from the stacks of hay which were numerous along the bottom land.

CARLIN

Is a small but pleasantly situated place and is the end of one of the freight divisions of the C. P. R. R. There are only two or three streets in the place and but few business houses; but those few are doing very well. The Central Pacific car shops are situated at this place and employ quite a large number of men. The shops consist of a round-house, machine, car and blacksmith shops, altogether making quite a little railroad village. There is a fine library association, having about nine hundred volumes, which is quite a library for so small a town. The association also has a building of its own, which is nicely arranged for the comfort of all who desire to visit their reading rooms. There is also a Good Templars' lodge at Carlin, having nearly sixty members, and it is established upon such a sound basis that its permanency is certain. There is also a dramatic society that gives amateur entertainments occasionally, and it is said that there are some very fine actors in it, and that they all perform with credit to themselves and to the amusement of the audiences. Although the town is small I do not think it an unpleasant place to visit after all.

O. B SERVER.

Found Insane.

Drs. Bergman and Lewis examined John Minor night before last and adjudged him insane. He was taken to the asylum last night by the Sheriff. John is the man who attempted to kill Ah Choney a few days since because he returned a razor which John wanted to kill himself with.

THE shipment of bullion by the California has thus far fallen nearly one third short of the proceeds of last month to the same date, but as there is still another shipment to make, and also a considerable reserve in the treasury, it is improbable that the regular dividend will be paid at the usual time.

THE latest slang phrase is: "Say Mister, have you got time to take a trunk?" Thrown at a gentleman hurrying past on pressing business, the effect may be imagined.

MCGINLEY will sell his evergreen trees Saturday afternoon at 2 o'clock, without reserve. They are indigenous and in their native soil, and therefore bound to grow. They are very fine.

HAY is beginning to arrive in Virginia from the Truckee Meadows by way of the Geiger Grade, which road is now in very good condition for teaming.

IT cost the State $3.301 in 1878 for transportation of insane persons to Stockton. And yet some say we don't need an asylum at home.

Brevities.

Well, how's stocks? Expect a deal soon?

The evergreens for decorating the Pavilion are beginning to arrive.

The United States Grand Jury is in session at Carson.

Valentines are beginning to be in demand. In a little while the grand rush will begin.

The school trustees would give general satisfaction if they built two more school rooms.

Smith Hill, arrested upon a charge of assault upon Gill, was discharged from custody last evening.

The river continues full of sawdust. The fish will have a hard time to get up the river if the water is not clearer.

Five prisoners in the county jail, all new hands, except Ah Chuney, who was in custody of Sheriff Lamb for several months.

The good people of Huffakers have a sheet and pillow-case party to night. The ghosts and ghostesses will have heaps of fun.

McGinley leaves for Paradise on Monday with a load of passengers. Being an old prospector he wants to see the new camp for himself. Paradise would be new to heaps of '49-ers.

Jos. Barston, night operator at the C P. office, who went below recently to have a tumor removed, returned yesterday morning, the difficult operation having been successfuly performed.

The minstrel show to be here Saturday and Sunday evenings have put up some very fine bills around town. But for having a week of extra time, we would not have been favored. They are under a five weeks engagement at Baldwin's, San Francisco and arrived a week too soon.

District Court.

Court was in session yesterday, His Honor, Judge King presiding.

In the matter of Maria Estes vs. Sol Simpson, it was ordered upon stimulation that judgment be entered according to the prayer of the complaint and that a stay of proceedings be granted or ten days.

Wm. Hoffman vs. Antone and Sarah Rager. Ordered that plaintiff have five days to file amended complaint and that defendant have ten days in which to file his amendment.

Tihearo & Giovante vs. W. A. Walker. Set for Monday at 11o'clock.

Reno Savings Bank vs. Washoe county, defendant given ten days to answer.

Court adjourned until ten o'clock this morning.

District Attorneys' Salaries.

Assemblyman Gibson has introduced a bill in the Legislature to regulate the compensation of District Attorneys in the several counties. The bill fixes the figures as follows, the salaries to be paid quarterly: Storey county, $2,000 per annum; Lyon, $1,500; Esmeralda, $1,000; Douglas, $1,000; Ormsby, $1,500; Washoe, $1,000; Humboldt, $1,000; Churchill, $600; Lander, $2,000; Eureka, $1,200; Elko, $2,000; White Pine, $1,000; Lincoln, $1,500; Nye, $1,500. In all new counties hereafter created the commensation shall be fixed by the County Commissioners at a sum not exceeding $1,500 per annum.

Woolen Mill.

Reno ought to have a woolen mill, as we have before stated time and again. With the advantages our town possessed the plan is not only feasible but shows at a glance that it would pay. There is no doubt but that Reno is prominently the place for a woolen mill. The Truckee river has a fall of over 300 feet to the mile and hence affords us as fine a water power as can be found in the world. There are over 20,000 head of sheep in the county, and Reno is a central point to ship wool to from all parts of the State. The advantages and inducements for erecting a woolen mill in or near Reno are so many that we are convinced that our capitalists will take hold of this matter at once and push it to a consummation.

Shot At.

Night watchman James Stanaway was busy going his rounds calling early risers Wednesday morning at about 4 o'clock, and when in the alley back of Hammond & Wilson's stable, some one shot at him and disappeared. Jim is not aware of the existence of any one who would like to see him dead and so has no idea who it could have been. The ball came uncomfortably near. He does not hanker after any more experience of that character.

Cheap Glory.

Some time ago Rev. C. McKelvey in a sermon remarked that such papers as the Police *Gazette* did much to demoralize the minds of the people and advocated their abolition from the hands of young and old. The paper alluded to read of it in an exchange and "goes for" the reverend gentleman in a fearful manner, and threatens to print his portrait so that all may see what manner of man has dared to criticise their paper. We anxiously look forward to the time when the portrait will be given so we may see which of the criminals it will make sure of to personify our worthy townsman. The notoriety he will attain will be a very cheap glory. He laughs at the matter, as he should, and will let them howl to their hearts content.

Will not be Ready.

It was hoped that the Methodist Church would be ready for occupancy on Sunday next, but it is now found that the paint will not be dry enough by that time, and so it has been thought best to defer it still another week, at which time every thing will be "good and ready." The edifice will hardly be known when it is finished.

Verdi Planing Mill.

The Verdi Planing Mill has commenced operations again, and now have about a two third force at work. They will run full handed as soon as business will warrant. They look for a busy season this year and are preparing for it. The high character of all work they turn out is attracting them much business.

Very Aged.

Yesterday morning Mrs Elizabeth Sharp died in the County Hospital, at the advanced age of 93 years. The had been a resident of the Poorhouse for a good many years, and died of old age. She was buried from Sanders & Neale's undertaking establishment.

WE are in receipt of the annual report of Controller Hobart, for the fiscal year of 1878. It is a book of 333 pages and is one of the most complete and exhaustive reports ever presented.

SITTING BULL, unfortunately, says the New York *Tribune*, is a Bull who will not sit. On the contrary, he and his people have a propensity to "get up and get." When we thought ourselves well rid of them, and with joy saw them take refuge in Canada, we did not begrudge the Queen her acquisition. But S. Bull, it appears, prefers a Republican form of Government, and has come back to us like a bad penny, with fifteen thousand bad pennies to keep it company. The warrior promises hereafter to behave himself, and sternly to restrain his propensity for scalping the pale faces. He is anxious to be tenderly cared for by the Indian Bureau and exhibits a touching confidence in that department. His views are peaceable. Now what could the department want more than fifteen thousand and one poor Indians all sorry for what they have done, and all promising never to put on war paint nor to go upon the war path again? Here is an opportunity for a bit of wholesale civilization. May it be improved!

THE proposition for a new general topographical survey of the United States is urged on the ground that it will disclose that nearly all the prominent places are out of place in all the maps. Columbus, Illinois, it is said, is a mile from where it should be on on accurate map, and Salt Lake is several miles out of place. The State boundary lines are out of plumb, county lines are not accurate, and the United States as a whole has a full mile of territory from ocean to ocean more than it is credited with Congress ought not now to agit te this subject. "When ignorance is bliss 'tis folly to be wise." The various cities of the United States are in no condition financially to get up and move into their proper locations. The *Leader* says a new survey might find that Eureka, should she pay heed to scientific lines, ought to be over in White Pine county, and, while that would be the financial salvation of the latter, it would be ruin to present holders of Eureka county indebtedness. All they want is to be let alone.

IN San Francisco at a meeting of the stockholders of the Odd Fellows' Savings Bank, it was voted unanimously to put the bank into liquidation, for the reason that it was impossible for the bank to pay the semi annual dividend now overdue and that the Bank Commissioners had decided they could not legally pass it.

OUR UNFORTUNATE.

Report of Joint Committee to Visit Insane and Deaf and Dumb Asylums of California.

To the Honorable, the Senate and Assembly of the State of Nevada:—

Your Joint Committee of the Senate and Assembly appointed to visit the institutions in California where the Insane of the State of Nevada are cared for, respectfully report, that in pursuance of instructions, the members of the Committee visited in person the Stockton Insane Asylum and the Berkeley Deaf and Dumb Institution, and after a careful and close investigation of the two Institutions have gained information and arrived at conclusions as follows: Arriving at Stockton on the 20th of January, we were met by Drs. Langdon and Clark, the parties who are now the custodians of our Insane, and we then visited the premises occupied by them, known as the Pacific Insane Asylum. The buildings are capacious, well ventilated, and are constructed of stone and brick and are surrounded with pleasant grounds, ornamented with trees and shrubbery. The area of ground includes forty acres, having play grounds for the males of 150 feet square, and 100 feet square for the females, with a pleasant arbor and shade in the centre of each. The rooms of the Asylum are large and airy, and everything about the premises seemed to be in a character of conduct which could be nothing but conducive to the health of the patients. In fact it seems as though Nevada's patients in this Asylum are well fed, lodged and considerately and humanely treated, with only such restraint as is requisite. Your Committee examined the Register of the cases of patients by asking the questions submitted in Exhibit "A," and ascertained in reference to the causes that led to insanity, that there were four, viz: Dementia, Mania, Monomania and Emotional Insanity, and that there are eighty eight males and twenty nine females in the Asylum from this State, as will be shown by Exhibit "A."

Subsequently your Committee, under escort of Drs. Langden and Clark, visited the California State Insane Asylum, Dr. Shurtliff manager, one of the ablest physicians on diseases of the mind, who extended us every facility for gaining information respecting the management of the institution which he supervised, in order that we might make the necessary comparison between the Pacific Insane Asylum and that of the California State Asylum.

A list of the names of 69 of Nevada's patients in the Pacific Insane Asylum, with the causes of insanity, their place of nativity, etc., will be found annexed as Exhibit "B," for which we are indebted to Mr. Gravitt of the Pacific Insane Asylum. We find that during the last two years eighteen of Nevada's patients were discharged, fourteen of which were of recent admission, and four admitted previous to the last two years. This shows a percentage of a little over twenty-four per cent on admissions. There were fourteen deaths since the report of the Joint Committee of last Legislature, and ten of those admitted previous to the last two years. We find the occupants in the Asylum on last report to the number of eighty, that there has since been admitted sixty-nine, making a total of one hundred and forty nine; that there has been discharged eighteen; that fourteen have died, and that there are now in the Asylum one hundred and sixteen patients. The number discharged, name and place of residence will be found in Exhibit "D" So far as the Deaf and Dumb Institute at Berkeley is concerned, your Committee, after visiting it, found it a good and substantial building, well fitted for its purposes, comfortable in all respects, and that there were but four of Nevada's pupils in it, as will be seen by Exhibit "C" hereunto annexed. One of these pupils has parents who have removed to San Francisco, and the charge for his support is not a reasonable one against this State.

Dr. Wilkinson, the Principal of the Institution, treated your Committee courteously and afforded it every opportunity for information. In conclusion your Committee desire to state that owing to the fact that the insane are so well taken care of in the institution we visited, that it has some delicacy as to recommending whether an asylum should be built in Nevada or not; and with all due respect have determined to submit that question to the honorable body of which we have the honor to be members, for its careful, just and impartial consideration. All of which is respectfully submitted.

TALK is CHEAP.—And so are fine clothing, boots, shoes, and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. I do not boast when I say that I defy competition in prices in anything in my line. Besides this I have only one price. I have no preferred customers. Everybody is treated alike at my establishment. My stock is the largest and most complete ever offered in any part of this State. Everything I have is new. No old, musty and out-of-date goods can be found on my shelves. I receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of my prices and examine my stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. I make a profit on everything I sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. I particularly call attention to my full stock of fancy underwear such as is kept nowhere else in Reno. This class of goods forms one of my specialties. Remember the place. Beg to inform the Smoking Public that they are the only manufacturers of Cigars who use at present only 1875 Havana Fillers and 1876 Pennsylvania Wrappers, the latter is grown from Havana seed. Both of above mentioned crops are much superior to anything grown since then and Messrs. L B & Co. had the forethought and capital to lay in a sufficient supply to last them until the '77 crops will be sufficiently cured to be worked to advantage, as the latter crop is now it is entirely unfit to be worked for at least 8 months to come as it tastes bitter, looks some what and has a copper color. WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN,

These are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weaking of the system in a manner the patient cannot account for. On examing the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and turpid appearance There are many men die of this difficulty ignorant of the cause, which is the second stage of seminal weakness Dr S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs
